

The Wisconsin Do Not Call List provides very strong protections to me as a Wisconsin citizen.

Please leave the Do Not Call List as it is! I do not want to be telemarketed. I do not want to pay for phone calls from businesses to trying to sell me something, including but not limited to trying to induce me to switch phone companies or internet companies. It's harassing to get unsolicited phone calls from telemarketers. Telemarketers should be required to pay the person whose phone number they dial. Otherwise, the FCC should encourage businesses to utilize the USPS to deliver their message. This will help the USPS and the businesses as well.

Leave the Do Not Call List alone.
